

WE ARE LISTENING

Send us your Voices4Climate!

Connect4Climate, in collaboration with MTV and TerrAfrica, invites you to enter Voices4Climate - our new competition for the world's most powerful climate stories told through photos, videos, music videos, and podcasts.

The Voices4Climate Competition challenges young people ages 13-35 from all over the world to submit photos, videos, music videos, and podcasts that communicate compelling climate change stories. Start snapping, filming, reporting, and rapping to tell us: how is climate change affecting your country? Your community? You, your friends, and your family? Do you have a cool idea for a local solution?

Eligibility

Participants submitting photos and videos must be 13-35 years old and entries will be judged within two age groups: 13-17 years and 18-35 years.

Participants submitting music videos must be 18-35 years old and will be judged within this single age group.

Participants submitting to the TerrAfrica Podcast Story category must be 18-35 years old and will be judged within this single age group.

Prizes

Winning podcast entries will be featured at the UN Conference on Climate Change (COP18) in Doha, Qatar in December 2012. The top two TerrAfrica Podcast Story winners will be invited to Doha to cover the climate conference for TerrAfrica Green Radio.

Winning photos, videos, and music videos will be featured at a major climate change event in February 2013 in Washington, DC. Up to 70 prizes will be awarded, and the first place music video winner will be invited to spend a day with MTV editors in New York or London and have his/her music video featured on MTV's Voices platform.

Categories

Each photo, video or music video (1 to 5 minutes) must tell a climate change story related to one of these eight categories:

- 1) Agriculture
- 2) Cities
- 3) Energy
- 4) Forests
- 5) Gender
- 6) Health
- 7) Jobs and the Green Economy
- 8) Water

The TerrAfrica Podcast Story category is focused on Africa. All podcast entries (2 to 5 minutes long) must tell an African land degradation or sustainable land and water management story.

NEW Deadlines!

All TerrAfrica Podcast Story category entries must be received by 11:59 pm EST, Monday, **October 29, 2012**.

All photos, videos, and music videos must be received by 11:59 pm EST, **December 31, 2012**.

Get your creative juices flowing and enter now- we want to share your voices4climate with the world!

www.voices4climate.org

Our goal is to create a participatory, open knowledge platform that engages the global community in climate change conversation to drive local action through advocacy, operational support, research, and capacity building.

TerrAfrica is an African-led program that supports innovative solutions to sustain landscapes and adapt to a changing climate. It promotes the World Bank/GEF Sahel and West Africa Program in support of the Great Green Wall Initiative and the NEPAD SLM program that use a multi-sector, multi-level, and multi-partner approach to improve land management for food and water security and climate resilience, leading to more growth and less poverty.
